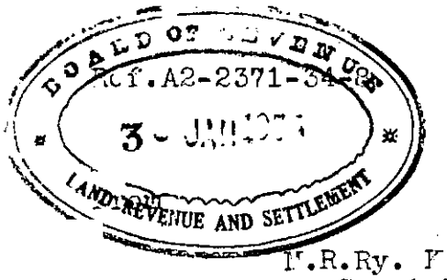
Settlement - Resettlement - South Kanara - Increment remission account and working statement - Forms - Printing.

*****

If the Government have passed orders approving the proposal to grant both ordinary and special increment remissions in South Kanara I request that the enclosed specimen forms of increment remission account and working statement may kindly be approved. The forms are similar to those approved for Malabar in G.O.No.Mis.349 Revenue dated 12.2.1932 communicated with B.P.Mis.No.543 dated 16th February 1932, with a few necessary modifications.

2. The number of the forms required would depend to some extent on the orders which the Board may pass on the question raised in my R.O.C. A2/3602-34-1 dated 13.11.34 of the eligibility for increment remission of partial - conversions of dry to wet and garden. I shall as soon as practicable inform the Superintendent, Government Press, of the number required and I request that he may be - instructed to print and supply me with the number of heading and inner sheets of the increment remission account and the working statement indented for within a fortnight of the receipt of my indent.



Revenue Settlement Office,
Party No.III, Mangalore,
Dated 21st December 1934.

M.R.Ry. K.P.Krishnan Nair Avargal, B.A.,
Special Assistant Settlement Officer in Charge.

To

The Secretary to the Commissioners of
Land Revenue and Settlement, Chepauk, Madras.

Sir,

Settlement -- Resettlement -- South Kanara -- Increment remission account and working statement -- Forms -- Printing.

******

Reference:- My refrence A2-2371-34- dated 10-12-34.

I have since ascertained the probable number of forms required in each Branch Office and it is found that except in respect of heading sheets of increment remission accounts, the surplus stock on hand of the forms printed for Malabar will be sufficient. The ~~notifications~~ modifications suggested in my letter dated 10-12-34, if approved, will be carried out in manuscript and there will be no need to print fresh forms of increment remission account inner sheets and increment remission working statement (heading and inner sheets). As for the heading sheets of increment remission accounts, there being only abou 100 forms in stock, I request that the Superintendent, Government Press may be directed to print and supply me with 2000 (two thousand) increment remission account heading sheets as early as possible.

K.P.Krishnamayer

F. 28/35 — Q. 67 c-f.

Res (Rev) 151 d. 15-1-35.

—

The Board approves the form of increment remission account for South Kanara submitted by the S.A.S.O. ~~subject to the presumption~~ It is presumed that the ~~remission~~ working staff will contain three sections as shown below

Sec. I - Lands on which the assessment has been enhanced by 12½

Sec. II Lands on which there has been no enhancement

Sec. III (a) Lands transformed from dry to wet or garden on which increment remission

spread over a period of 12 years
instead of 5.

III (b) ... Investment remission
on account of permanent
enhancement on lands
falling under class III (b)

The S.A.-S.O. is requested
to report whether this presumption
is correct

The Superintendent,
Government Press, is requested to
print & supply (at as very early
date as possible) to the S.A.-S.O. III (b)
2,000 copies of the investment remission forms, hereto
annexed (as typewritten). ...

Subj:- Revn (South Kanara) – Increment remission account & working statt. Forms. Printing

F. 972/34 & F. 28/35.

Z. A. S. (Statt).

Please see the S. A–S.O.'s letters at pp 1 & 7 c.f.

2. Under the ordinary rules for the grant of increment remission, the remission is granted only when there is an increase of 25% in the existing revenue assessment of a holding. Vide Appendix XXVII of S.O. II of the revn. manual. Owing to the unprecedentedly low level of prices at the time when the revn. rates were introduced govt. sanctioned for the first time in the case of the Godavari & Kistna a special scale of increment remission in the case of lands on which the enhancement was by 18¾% or 3 annas in the rupee, a remission of 2 annas in each rupee was granted in the 1st year, 1 anna in the 2nd year & the full revn rates were collected in the 3rd year. In the case of lands on which the enhancement was by 12½% or 2 annas in the rupee a remission of 1½ annas in the rupee was made in the 1st

year, 1 annna in the 2nd year, ½ anna in the 3rd year & the full rates were collected in the 4th year. The increment remission had to be worked out for each holding and for this purpose a form was approved in respect of the Gudavasis & Kootna. The latter form is at p 106 of (E)
It was prepared in three sections as shown below

Section I - showing lands in the holdin on which the assessment was increased by 18 3/4 %

Section II - do. on which the increase was by 12 ½ %

Section III - Showing lands on which there was no increase.

When the revn. of valabar followed subsequently, the same scale of increment remissions were granted in the percentage increase in rates. In addition, the usual increment remission spread over 12 yrs and referred to above was granted in the case of lands transferred from dry, to wet or garden at the revn. In view of this fact & in view of the ~~reason~~ fact that there was no enhancement land in Malabar on which the assessment was not enhanced at revn., the form of the increments

remission was modified by the opening of an additional sub-section as follows:-

Sec I lands on which enhancement is by 18 3/4 %

Sec. II. Do by 12 1/2 %

Sec. III (a) Ordinary increment remission ~~rates~~ for lands transferred from dry to wet

(b) Special remission on property ~~rate~~ enhancement for lands specified in (a) above.

proposals on the scheme report. Have been approved.) The S. A. S. O. has now submitted a form of increment remission account for approval. The difference between Malabar & South Kanara is that (1) there are no lands in South Kanara on which the enhancement is by 18 3/4 % so an enhancement of 12 1/2 % only has been recommended in the case of wet & garden lands & (2) that the dry lands in South Kanara are to be exempt from enhancement & (3) there are no lands of the description 'unoccupied dry' included in holdings in South Kanara. The S. A. S. O. have therefore modified the forms approved in the case of Malabar suitably, ~~& have submitted them for approval~~ The modifications to Cols 5 to 7 of the form of increment remission account & in Col. 2 of the working statt may be approved. The statt in the case of South Kanara should be worked out in three sections as follows

Draft Office has been taking its time over this extremely simple case & have issued orders on the Scheme report.

10.1.25

dry to wet or garden on which increment remission spread over a period of 12 years is due

& Sec III (b) - Increment remission on element of (percentage enhancement on lands falling under class III (a).

The S. A. S. O. has not specifically reported the reasons for retaining 3 sections and whether they are to be worked out as mentioned above. The forms may be approved subject to the presumption that the staff will be worked out in 3 sections as shown above. It seems that as the form proposed for South Kanara is not materially different from that approved by Govt. for Malabar except for the few modifications referred to above, it may be approved by the Board itself & ~~submitted to~~ a copy of the B. O. marked to Govt.

The S. A. S. O. requests that 2,000 copies of the increasing remission form (heading sheets) may be printed and supplied to him & states that ~~in respect of the other forms~~ as there is a surplus stock of the other forms printed for Malabar he will utilise them after carrying out the necessary corrections. The form is not

a standardized rule & under para 105 (106) of the Stationery Manual Part I the Board can sanction the printing no more than 50 copies are required The Supdt. Govt Press may be asked to print & supply the required forms.
